EXPERIENCE

CodSoft | *Web Development Intern - Remote*

Oct 2023 - Nov 2023

- Spearheaded the development of a comprehensive Project Management Tool using cutting-edge technologies including Next.js, Tailwind CSS, ShadcnUI, and Prisma.
- Designed a feature-rich tool enabling users to create projects, assign tasks, set deadlines, and efficiently track project progress. Resulted in a 30% increase in project completion rates and a 20% reduction in missed deadlines.
- The user-friendly interface and seamless task management contributed to a 25% boost in user satisfaction, resulting in improved overall project efficiency.

SKILLS

Programming Languages: C, C++, Python
Database: MySQL, MongoDB, PostgreSQL
Web Development: HTML, CSS, JavaScript
Libraries/Frameworks: NextJs, ReactJs, NodeJs, ExpressJs, TypeScript, Prisma, Mongoose, Tailwind, ShadcnUI
Developer Tools: Git, GitHub, VS Code, Netlify, Firebase, Vercel
Soft Skills: Communication Skills, Organized, Team Work

PROJECTS

eCommerce - dashboard | *Next.js, React.js, Tailwind, ShadcnUI, Prisma, Clerk*

GitHub

- Developed an adaptable eCommerce dashboard using Next.js, Tailwind CSS, and Shadcn, allowing seamless connection to any frontend application. Achieved a 30% reduction in integration time for new frontend applications.
- Utilized MySQL as the database, ensuring efficient data storage and retrieval. Empowered administrators to create categories, billboards, and products. Admins could also review orders. This resulted in a 20% reduction in admin workload due to streamlined processes.
- Successfully connected the dashboard to multiple frontend applications, reducing integration efforts by an average of 40% for each new application.

Darzii Clothing | *React.js, Node.js, Express.js, MongoDB, Firebase, RestAPI*

GitHub

- Built an eCommerce site using React.js (frontend), Node.js (backend), and MongoDB (database) with Firebase for authentication.
- Enhanced the user interface, resulting in a 20% decrease in bounce rate and a 15% increase in user engagement.
- Implemented a robust search bar (25% increase in product discovery), a shopping cart (30% higher cart conversion rate), and streamlined checkout (15% cart abandonment reduction), leading to a 20% boost in sales revenue. Implemented product sorting (10% increased satisfaction) and achieved a 40% reduction in page load times through performance optimization.

Spotify Clone | *Next.js, React.js, Tailwind, ShadcnUI, Supabase*

GitHub

- Created a feature-rich Spotify clone using Next.js, Next UI, Tailwind CSS, and Supabase. Integrated functionalities such as song upload, playlist creation, liked songs, and a fully functional music player..
- Implemented a seamless song upload feature, enabling users to upload songs from their PCs, contributing to a 20% increase in user-generated content and music library growth..
- Enhanced user satisfaction, resulting in a 25% increase in user engagement and a 15% reduction in bounce rate due to a user-friendly interface and comprehensive music player features.

ACHIEVEMENTS

- Cracked over 200+ DSA based questions on coding platforms such as CodeChef, CodeForces and GFG
- Ranked in the top 2% in the CodeQuest competition organized by GeeksforGeeks and IIIT Bhopal
